

4 Courses

Production Machine Learning Systems

Computer Vision Fundamentals with Google Cloud

Natural Language Processing on Google Cloud

Recommendation Systems on Google Cloud

Jul 6, 2026

Google Cloud Training

ERIC DAVID RODRIGUEZ FLORES

has successfully completed the online Specialization

Advanced Machine Learning on Google Cloud

This specialization focuses on advanced machine learning topics using Google Cloud Platform where you will get hands-on experience optimizing, deploying, and scaling production ML models of various types in hands-on labs. This specialization picks up where “Machine Learning on GCP” left off and teaches you how to build scalable, accurate, and production-ready models for structured data, image data, time-series, and natural language text. It ends with a course on building recommendation systems. Topics introduced in earlier courses are referenced in later courses, so it is recommended that you take the courses in exactly this order.

This certificate attests to the learner’s completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
