Machine Learning Operations (MLOps): Getting Started

Machine Learning Operations (MLOps) with Vertex AI: Manage Features

Machine Learning Operations with Vertex AI: Model Evaluation

Orchestrate ML Workflows with Vertex AI Pipelines

Google Cloud Training

ERIC DAVID RODRIGUEZ FLORES

has successfully completed the online Specialization

Machine Learning Operations (MLOps) on Google Cloud

This certificate recognizes the completion of a comprehensive program on Machine Learning Operations (MLOps) using Google Cloud. Recipients have demonstrated expertise in transitioning ML prototypes into production-grade systems by leveraging Vertex AI for feature management and model evaluation. The curriculum highlights the orchestration of automated, scalable workflows using the Kubeflow SDK and Vertex AI Pipelines, as well as the integration of advanced tools like the Data Science Agent to optimize the ML development lifecycle.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
