- Software Developer Career Guide and Interview Preparation

May 7, 2026

Antonio Cangiano

Antonio Cangiano
Director, IBM Skills Network

ERIC DAVID RODRIGUEZ FLORES

has successfully completed the online Professional Certificate

IBM JavaScript Backend Developer

Holders of this certificate showed their ability to build the backend of a cloud-native application. Learners can develop, deploy, test, run, and manage back-end applications using the utilized tools, technologies, and methodologies including HTML, CSS, JavaScript, Git, GitHub, Node.js, Express, Agile, NoSQL databases, containers, Docker, Kubernetes, OpenShift, DevOps, CI/CD, Microservices, and Serverless computing. They are prepared to take on the challenges of an entry-level back-end developer role.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
